Curbside Pilot Program Incentive

Unproven solutions in unexpected times carry risks for all businesses and none more than small, locally owned businesses like yours and mine. To help us all get through this period of economic uncertainty, Virvent is offering a pilot program incentive for small businesses in Lake County through the end of the March 2020.

Simply use our software. No costs, no fees, no investment.

If you wish to keep using the software after March 31, pay a \$20 monthly service fee and \$0.10 per curbside transaction. If it gets you through this shutdown period and you wish to discontinue using the solution, we understand. We hope that you will keep us in mind for other needs in the future.

We are #CommunityStrong
